

Dear Sir/Madam,

We would like to update you on recent developments in the TOPAs (Tools for Continuous Building Performance Auditing) project www.topas-eeb.eu.

The News & Events section at <https://www.topas-eeb.eu/news-events> contains the links to the main Project events along with the public deliverables summarizing:

- The best practices in Energy Performance Auditing.
- Key findings from the TOPAs Stakeholder Forums held in Ireland & France.
- The initial set of requirements and use case scenarios reflecting how the TOPAs platform addresses the business needs of the Project's stakeholders.
- The methodology to validate the TOPAs solution at three demonstration sites in Ireland and France.

In addition, you are invited to watch the video materials from the Project Stakeholder Forum event at <https://plus.google.com/u/0/109746372877064124877/videos> and download the key speakers presentations from <https://www.topas-eeb.eu/documents/dissemination-materials1/stakeholder-workshop-ireland> .

Sincerely yours,

TOPAs Consortium.
